

## Definition

The OIG/GSA Sanctions Report is comprised of the following components: OIG (Office of Inspector General) and GSA (General Services Administration). The OIG/GSA search utilizes the U.S. Dept. of Health and Human Services (DHHS) and the Office of Inspector General's database for individuals and businesses excluded or sanctioned from participating in Medicare, Medicaid or other federally funded programs.

## Recommended for

The OIG/GSA search is vital for healthcare industries participating in Medicare, Medicaid or other federally funded programs. If an organization employs an individual on these sanctioned lists they may be forced to pay back all federal funds received via these programs going back to the date the person was employed.
